

Product Change Notification

Change Notification #: 119658-00

Change Title: MINOR CHANGE,
Select Intel® Core™ 12th Gen and 13th Gen
Processors, Intel® Pentium® Gold Processors and
Intel® Celeron® Processors,
PCN 119658-00, Product Material,
Dimple Added to IHS Lid for Internal Use-Only

Date of Publication: August 28, 2023

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	September 27, 2023
---	--------------------

Description of Change to the Customer:

The Intel® SKU listed in the “Products Affected/Intel Ordering Codes” table below will have the following change made to the topside lid place over the substrate.

- A dimple will be added to the top left corner of the substrate lid.

Customers will now see a dimple on the lid of the Integrated Heat Spreader (IHS). The dimple is for internal-use only and has no impact to the product itself. It will be used internally for product differentiation. See picture below.

(Note: Picture is for example only, demonstrating the IHS lid with dimple prior to Finish Operations).

Customer Impact of Change and Recommended Action:

Intel considers this change a MINOR CHANGE. There is no change to the form, fit, function, quality or reliability for the products.

Adding the dimple is for internal process improvement, making it easier for internal operators to distinguish products one from another.

Please contact your Intel Field Representative for any questions or concerns with respect to the change communicated in this Product Change Notification.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
