Description of Change to the Customer:

Reason for Revision: Add clarification to change description

The Intel® SKUs listed in the products affected table will have the following changes.

The manufacturer of the short-wavelength VCSEL and Photodiode components is changing in all 10G per lane and below transceiver PMDs resulting in a part number change to the optic label.

Customer Impact of Change and Recommended Action:

The part number change to the products does not affect the operation or functionality of the product. Customers can expect to receive mixed inventory until current inventory levels are depleted.

Customers should be aware of the changes to the label and take appropriate actions to accommodate the changes and avoid impact to their processes for receiving or integration in their factories.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
