Product Change Notification

Change Notification #: 111512 - 02
Change Title: Intel® Desktop Board DZ77RE-75K, Boxed and Bulk
PCN 111512-02, Product Design
PCB Fab Update
Reason for Revision: PCN CANCELLATION
This change will not be implemented

Date of Publication: July 10, 2013

Key Characteristics of the Change:
Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Feb 11, 2013
---	--------------

Description of Change to the Customer:

Reason for Revision: PCN CANCELLATION. This change will not be implemented.

The printed circuit board for DZ77RE75K will be updated to improve functionality and performance by removing Pin 10 from the Front Panel USB 3.0 connector to resolve a front panel false over current message.

Customer Impact of Change and Recommended Action:

This change has been evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
