Change Notification #: 114910 - 00
Change Title: Intel® NUC Kit, NUC6i7KYK,
PCN 114910-00, Product Design,
BIOS Update and NFC header removal
Date of Publication: September 21, 2016

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Oct 07, 2016
---	--------------

Description of Change to the Customer:

The Intel® NUC Kit SKUs listed in the products affected table below will have the following changes.

1. The BIOS will be updated from KYSKLI70.86A.0037 to KYSKLI70.86A.0041. To access the release notes or get a copy of the BIOS for evaluation, go to <http://downloadcenter.intel.com>.
2. The NFC header and associated components along with support in the BIOS are being removed.

Customer Impact of Change and Recommended Action:

It is recommended that customers evaluate this new BIOS to ensure a smooth transition. Intel validation of a new board revision does not include testing with older versions of BIOS. .

These changes have been evaluated to ensure that there are no quality, reliability or functional implications to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
