Product Change Notification

Change Notification #: 109360 - 00
Change Title: DQ35MP, PCN 109360-00, Product Material, Audio codec change
Date of Publication: April 29, 2009

Key Characteristics of the Change:

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	May 28, 2009
---	--------------

Description of Change to the Customer:

The audio codec ALC268VA will be replaced with a newer stepping version ALC268VB.

Customer Impact of Change and Recommended Action:

For those customers that have disk image, this change to the codec has been observed to report a "New device detected". Microsoft* Windows will display a message and automatically install the necessary drivers; however customers may wish to update their disk image to avoid the message.

This change is not expected to cause a change to the Microsoft* Windows* operating system's software driver stack. This change has been thoroughly evaluated to ensure that there are no quality, reliability or functional implications to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.
