Product Change Notification

Change Notification #:	110047 - 00
Change Title:	Intel PRO/1000 GT Desktop Adatpers, PWLA8391GTG3P20 MM#884035, PWLA8391GTG3L20 MM#884050 (Stebbins2 Lead Free OEM generic-Fujitsu) PCN 110047-00 Label, Transport Media Add European Union WEEE (Waste Electrical and Electronic Equipment Directive) Regulatory Label and Box change from Medium to Small (G3P20 sku only)
Date of Publication:	June 08, 2010

Key Characteristics of the Change:

Label

Transport Media

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion

Jun 25, 2010

Material:

Description of Change to the Customer:

The Intel PRO/1000 GT Desktop Adatpers, PWLA8391GTG3P20 MM#884035, PWLA8391GTG3L20 MM#884050 (Stebbins2 Lead Free OEM generic-Fujitsu) will undergo the following changes:

Add EU WEEE Label:

Intel manufactures a wide range of products, from microprocessors, through embedded controllers, to systems, and is committed to complying with applicable legal requirements. We continually monitor changes in those requirements.

It is important to note that the EU WEEE Directive requires "producers" of certain electrical and electronic equipment to develop recycling programs to allow the end user to return WEEE for recycling. The definition of "producer" is broad and can potentially include various entities in a products life cycle (e.g. manufacturer, distributor,

reseller). Each EU Member State has implemented national legislation detailing specific requirements for WEEE implementation in that Member State. Some other non-EU countries have laws similar to the WEEE Directive; however, the scope and producer responsibility requirements vary from those of the WEEE Directive.

Most of Intel's semiconductor components are generally not considered within the scope of the WEEE Directive; however, the scope of the Directive can vary between Member States. In order to address potential scope and registration issues in a minority of Member States, certain components may be labeled with the wheelie bin symbol. Intel considers its chassis-level server products to be within the scope of the WEEE Directive, although the final assembly and/or configuration of these systems are commonly completed by commercial customers.

If you have any questions concerning this WEEE directive, please send an email to wEEE@intel.com.

The WEEE label will be placed on either the back or the front of the printed board (PB) depending on how much free space is available on the front or the back of the PB, see sample label picture below.

WEEE label picture (example only)

Box change Medium to Small, *PWLA8391GTG3P20 MM#884035 sku only:*

The 20 pak box will change from a Medium sized box: 12.25 x 10.00 x 5.75, to a Smaller sized box; 12.25 x 9.00 x 5.75(in inches). This smaller box will eliminate the current 1 inch gap, and consolidate our product packaging to reduce the amount of packaging types used on our sku's.

The Top Assembly (TA) and Printed Boards Assembly (PBA) numbers will also roll, as noted in the affected products table within this PCN notification. If the PBA/TA numbers are printed on any product or box labels, those will show the PBA/TA dash roll as well.

Customer Impact of Change and Recommended Action:

Customers can expect to receive mixed inventory until current inventory levels have been depleted.

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

This new label does not affect the Form, Fit or Function of the affected product(s).

Products Affected / Intel Ordering Codes:

Product Name	Product Code	MM#	Old TA#	New TA#	Old PBA#	New PBA#
Intel PRO/1000 GT Desktop Adatper (Stebbins2 Lead Free OEM generic-Fujitsu)	PWLA8391GTG3P20	884035	D58885-005	D58885-006	D58861-004	D58861-005
Intel PRO/1000 GT Desktop Adatper (Stebbins2 Lead Free OEM generic Low Profile-Fujitsu)	PWLA8391GTG3L20	884050	D58887-005	D58887-006	D58862-004	D58862-005
