| <b>Date Customer Must be Ready to Receive Post-Conversion Material:</b> | Oct 04, 2010 |

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by changes to supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

## Description of Change to the Customer:

Intel has implemented the following change:  
Component change to support 5.1 audio.

## Customer Impact of Change and Recommended Action:

This change has been thoroughly evaluated to ensure that there are no quality, reliability, or functional implications to our customers. Customers may want to perform re-qualification, re-test, re-certification or standard validation testing for this change; see sample detail in PCN where applicable. This change requires new Realtek audio driver for Microsoft Windows\* version 6181 to support the 5.1 audio feature. It is available from Intel's Download Center at [downloadcenter.intel.com](http://downloadcenter.intel.com).
