

# Product Change Notification

**Change Notification #:** 119100-00  
**Change Title:** Intel® MAX® 10 FPGA Device family,  
PCN 119100-00, Documentation,  
Configuration User Guide Update  
**Date of Publication:** June 10, 2022

## Key Characteristics of the Change:

Documentation

## Forecasted Key Milestones:

Availability of Intel® MAX® 10 FPGA Configuration User Guide	Now
--	-----

## Description of Change to the Customer:

This is the same change described in ADV2215 issued on June 7, 2022.

Intel is notifying customers of an important update to the Intel® MAX® 10 FPGA Configuration User Guide. Please note that there is no change to the design of the device.

Here's the link to the updated Intel® MAX® 10 FPGA Configuration User

Guide: <https://www.intel.com/content/www/us/en/docs/programmable/683865/current/document-revision-history-for-the-fpga.html>

Refer to table below for the update details

Updates	Location	Related document/Material
Updated Figure: Configuration Sequence for Intel® MAX® 10 Devices	Refer to Figure 10 on page 30	<b>Link to KDB:</b> <a href="#">Intel® MAX® 10 FPGA Configuration User Guide Update: I/O status prior to configuration on new or erased device</a>
Added a note to Dual Configuration Intel® FPGA IP Core References to clarify that the Dual Configuration feature is not supported in Intel® MAX® 10 devices with Compact feature option	Refer to page 65	None

## **Customer Impact of Change and Recommended Action:**

Customers are requested to review the change and determine the impact on their designs. Refer to the revision history of the MAX 10 configuration user guide for complete list and history of updates.

For question or support, please contact your local Sales representative, or submit a question or request at the My Intel support page, log-in via:

### Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at [www.intc.com](http://www.intc.com).

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
