PCN 112866-00, Product Design  
Firmware Update  
**Date of Publication:** February 7, 2014

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Mar 27, 2014
---	--------------

## Description of Change to the Customer:

Intel is upgrading the firmware version on the Intel® SSD DC S3700 Series 1.8" and 2.5" products from 5DV10265 to 5DV10270.

## Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
