Description of Change to the Customer:

Reason for Revision: Correcting Products Affected link

This is the same change described in ADV2210 issued on April 11, 2022.

Intel® is notifying customers of updates to the Intel® Stratix® 10 Device family Pin Connection Guidelines (PCG). Please note that there is no change to the design of the device.

Below are the updates listed in the Stratix 10 Device family Pin Connection Guidelines.

Updated the connection guidelines of the GXP [L, R] [10, 11, 12] [A, B, C] _RX_CH [0:19] [p, n] pins.	Refer to Table 21 on page 53
Updated the connection guidelines of the REFCLK_GXP [L, R] [10, 11, 12] [A, B, C] _CH [0, 2] [p, n] pins.	Refer to Table 21 on page 53

Refer to the below link for updated Stratix 10 Pin Connection Guidelines (PCG):

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
