Customer Impact of Change and Recommended Action:

The changes to the products do not affect functionality. Intel anticipates no impact to customers. Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible. Milestone dates are estimates and subject to change based on business and operational conditions. Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
