Description of Change to the Customer:

Reason for Revision: Updating Small Intermediate Box part number. No other changes have been made to the PCN. See update in blue text below.

Intel will be introducing a small box option for shipping 1-3 trays of product plus a cover tray. This will improve dimensional weight for delivery notices normally shipped in the Half Shipper/Intermediate box and reduce packaging materials at the destination. This small packaging concept removes the cushioning between the intermediate box and shipper box and limits the amount of trays in the intermediate box to one of the following configurations:

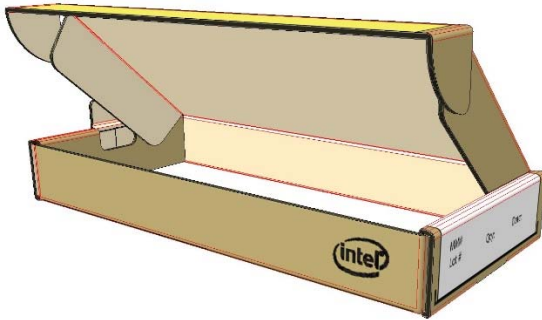

- 1 thick tray + cover tray
- 2 thin trays + cover tray
- 3 thin nested trays + cover tray.
