Product Change Notification

Change Notification #: 104160 - 00
Change Title: JEDEC Tray Packaging Redesign, PCN 104160-00, FYI, For Your Information
Date of Publication: June 17, 2004

Type of Change Notification:
FYI - (For Your Information)

Key Characteristics of the Change:
Product Marking

Forecasted Key Milestones:

Date of First Availability of Post-Conversion Material:	Jul 19, 2004
--	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

The implementation of a new JEDEC tray packaging system. The new packaging will replace the existing side by side packaging format with a new single stack package. In addition, shipments with partial box quantities will have an added air bag to increase product protection. The packaging also utilizes a conductive corrugated shim on the top and bottom of each tray stack to support improved strapping and shipment quality. All Intel® Pentium® 4 Processor products will have an increase in box quantity compared to the existing packaging.

Current Packaging

New Packaging

Customer Impact of Change and Recommended Action:

The packaging will change customer warehouse storage configurations. It is recommended that the customer evaluate packaging dimensions to optimize storage capacity. Optimization data has shown a 20% increase in storage capacity in most cases.
