Description of Change to the Customer:

Reason for Revision: Ready to Receive Date Change

The Intel SKUs listed in the products affected table will have the following changes.

- The firmware version is being updated from L0310100 to L0310200 for MM# 99A6PN, 99A6PT and 99A6PV. * Note: these MM#'s can't be reverted back to L0310100.
- Optionally the following SKUs in the table below may be purchased if the customer decides to remain on the firmware version L0310100.

Marketing Name	Product Code	MM#
Intel® Optane™ SSD DC P5800X Series (400GB, 2.5in PCIe x4, 3D XPoint™) 15mm Generic Single Pack	SSDPF21Q400GB07	99AP7V
Intel® Optane™ SSD DC P5800X Series (800GB, 2.5in PCIe x4, 3D XPoint™) 15mm Generic Single Pack	SSDPF21Q800GB07	99AP7W
Intel® Optane™ SSD DC P5800X Series (1.6TB, 2.5in PCIe x4, 3D XPoint™) 15mm Generic Single Pack	SSDPF21Q016TB07	99AP7X

The changes in the new firmware version are incremental improvements from previous version. Inventory will transition in the Intel factory on or beyond the above date to replace older firmware version with the latest version.

Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware although re-qualification is recommended. Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible. Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
