Product Change Notification

Change Notification #: 110232 - 00
Change Title: Intel(R) Server System
SR1530SH/SR1530HSH, PCN 110232-00,
Product Design, Product Material, Remove
system PCI fan
Date of Publication: October 21, 2010

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Nov 30, 2010
---	--------------

Description of Change to the Customer:

- The PCI fan of the Intel(R) Server System SR1530SH is being removed and replaced with an extended rubber air dam. The change is being made to enhance hard disk drive performance, by eliminating vibration caused by this fan. Intel has performed full system thermal validation utilizing the updated system fan / air dam configuration, and found no issues meeting the published thermal specifications for this system.
- The FRUSDR data programmed on the server board of the Intel Server Systems SR1530SH and SR1530HSH is changing from revision 1.14 to 1.15. The FRUSDR change removes monitoring of the PCI fan on systems that were previously integrated with one.

Customer Impact of Change and Recommended Action:

Intel recommends customers to evaluate these changes and determine impacts to their specific applications when the updated products become available.

Products Affected / Intel Ordering Codes:

Pre Change Product Code	Pre Change MM#	Pre Change TA	Pre Change PBA	Post Change TA	Post Change PBA
