Product Change Notification

Change Notification #: 109263 - 00
Change Title: Intel Server System
SR1530SH;SR1530HSH;FHJ350WPS, PCN
109263-00, Product Design, Improve the
350W Power Supply design
Date of Publication: March 29, 2009

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Apr 13, 2009
---	--------------

Description of Change to the Customer:

The 3.3V minimum loading requirement for the power supply is being changed from 1.2A to 0.2A. This change is being made to solve a loading imbalance issue which may occur on a very small percentage (<5%) of SR1530SH/SR1530HSH systems. A system may not power up because of that issue which unexpectedly triggers the power supply's protection circuitry.

Customer Impact of Change and Recommended Action:

Customers should evaluate the new power supply when available.
