Date of Publication: April 1, 2015

Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material: Apr 17, 2015

Description of Change to the Customer:

1. The power adapter will be changed from FSP065-REB to FSP065-REBN2
2. The Integration Guide will be revised to reflect the change to the power adapter

Customer Impact of Change and Recommended Action:

These changes have been evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
