Description of Change to the Customer:

Reason for Revision: Roadmap Change and TA Information Update

3 new MiniDIMM models have been qualified for Intel® Server accessory AXXMINIDIMM512 (MM# 897046).

They are SMART® SG647MR264852SGV, Micron® MT9HTF6472PKY-667F1 and Velocity® L495T6553F-E6Y.

All 3 models were added to the Intel Approved Manufacturer List (AML) so any one of the above 3 MiniDIMM models may be shipped as AXXMINIDIMM512.

The 3 new MiniDIMM models look nearly identical when compared to other qualified models that are shipped currently. There may be slight texture and color differences compared to the currently shipping MiniDIMM models but all of them are fit & function equivalent.

Customer Impact of Change and Recommended Action:

Intel does not expect any significant impact to the customers that receive the newly qualified MiniDIMMs. We encourage customers to review this change and determine the impact related to their specific application and usage.
