## Description of Change to the Customer:

The Intel Ethernet Server Adapters X520-T2, E10G42BTG1P5 MM#902916, E10G42BT MM#902900 (Iron Pond OEM generic/Retail), Intel 10 Gigabit AF DA Dual Port Server Adapters, E1042AFDAGP5 MM#897632, E10G42AFDA MM#897657 (Long Cove OEM generic/Retail) will undergo the following changes:

To comply with new regulations from Korea, Intel will be adding the new KC logo to the Printed Board (PB) as a label. The label will be added to either the front or the back of the PB depending on space constraints. The new KC logo will also be added to all box labels (product box label and over-pak box label). **(see pictures 1, 3 & 4)**

The old silk screened KCC logo will remain on the PB (either front or back). We cannot cover this logo up with the new KC label, as it would interfere with other markings. **(see picture #2)**

As a result of these changes, the TA (top assembly) number and PBA (printed board assembly number) will roll as noted in the affected products table within this PCN notice. If TA/PBA numbers are printed on any product or box labels, those will show the dash roll as well.

Picture 2 showing the old KCC logo, which will remain on the PB.  
(picture 2 example only)

Picture 3 showing the new KC label, which will be placed on the PB as a label. The KC label will contain; Date of Manufacture, Made in Country of Origin (COO) and a unique Product Identification number.  
(picture 3 example only)

Date of Manufacture, Made in COO, Product Identification number

**Picture 4 showing new KC logo on box label.** The box label already contains the Made in Country of Origin (COO) and the Date of Manufacture, this information will also show on the KC label.

**New KC logo, Date of Manufacture, Product Identification number, Made in COO** (Picture 4, all of the information showing in Picture 4 is for example only and may not reflect actual data)

### **Customer Impact of Change and Recommended Action:**

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Customers can expect to receive mixed inventory, until current inventory levels are depleted.

The addition of the new KC logo to the PB and box labels will not affect the Form, Fit or Function of the affected product(s).

**Please Note:** *Due to the complexity of these changes to all of our shipping Networking Adapter products and current inventory levels, customers might expect to see a shortened time period between date of PCN publication and Customer Ready to Receive Date.*
