# Product Change Notification

**Change Notification #:** 112657 - 00  
**Change Title:** Tape and Reel Bar Code Sticker ID on Reel to Increase by 2 Digits  
PCN 112657-00, Label, Transport Media  
**Date of Publication:** October 28, 2013

## Key Characteristics of the Change:

Label  
Transport Media

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Nov 27, 2013
---	--------------

## Description of Change to the Customer:

The tracking sticker placed on a reel by the vendor will be changing from 9 characters to 11 characters and appear in both human readable and bar code. There will also be a reel configuration number engraved in the reel as well.

This label is used by Intel factories to match the reels with the correct products.

## Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers. Groups who issue material to their manufacturing floors should be notified of the change in case they scan the bar code.

During the transition time, customers may receive lots with the old bar code (9 characters) and new bar code (11 characters) within the same lot until the old bar code inventory is fully depleted.
