

# Product Change Notification

**Change Notification #:** 119326-01

**Change Title:** Select Intel® Optane™ Persistent Memory 100 Series products  
PCN 119326-01, Product Design,  
Adding Alternate DQ Buffer Vendor  
**Reason for Revision: IPU 2022.2 or later version is required for alternate vendor component**

**Date of Publication:** November 16, 2022

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	January 26, 2023
---	------------------

## Description of Change to the Customer:

**Reason for Revision: IPU 2022.2 or later version is required for alternate vendor component**

The Intel® Optane™ Persistent Memory modules listed in the products affected table below will have the following change.

- Intel is adding an alternate qualified DQ buffer vendor. This is to ensure supply continuity of the product

## Customer Impact of Change and Recommended Action:

This change has been evaluated to ensure that there are no quality, reliability or functional implications to our customers **when used with IPU 2022.2 or later versions**. Intel encourages customer to understand the changes and determine the impact to their solutions.

Customers must use products containing this alternate vendor material with IPU 2022.2 or later versions comprising the BIOS hot fix MRC from PCN# 118011-01.

**For your information only.** No change to form, fit or function **when used with reference IPU 2022.2 or later versions**. No change to Intel Ordering codes

You can expect to receive mixed inventory until current inventory levels have been depleted. Please contact your local Intel Field Sales Rep if you have any further questions about this change.

### Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at [www.intc.com](http://www.intc.com).

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
