Product Change Notification

Change Notification #: 106885 - 00
Change Title: Products Transitioning from Intel Architecture to Embedded Intel Architecture, PCN 106885-00, Documentation, New Key Characteristic of Change - Product Support and Forecasted Key Milestones
Date of Publication: December 01, 2006

Key Characteristics of the Change:

Documentation

Forecasted Key Milestones:

Date Change Becomes Effective:	Dec 13, 2006
---------------------------------------	--------------

Description of Change to the Customer:

In order to deliver clear customer communications for products transitioning from the Intel Architecture Group to the Embedded Intel Architecture Group, Intel will be adding the new Key Characteristic of Change, called "Product Support" to their PCNs.

A Product Support PCN is defined as a PCN where the key characteristic is "Product Support". The PCN informs customers of product(s) transitioning from one business unit to another and the support and availability of affected product(s) will change. It consists of the impacted product(s) and the reason for the change in support.

To correspond with this new key characteristic the following Key Milestones will also be added. These milestones do not apply to the receiving division.

- **Last Demand due to Local Intel Representative due Prior to Product Support Change:** In order to assist Intel in planning manufacturing capacity and to better support our customers, this is the date when all customer demand is due to the customer's Local Intel Representative. It is a goal of Intel to support last time buy demand and upsides to the demand, it is not a guarantee.

EXAMPLE: For CPUs or Processors, demand would be requested 1 quarter prior to the last order date.

- **Last Hot List Date Prior to Product Support Change:** The last date when customers may submit a request for product utilizing Intel's Corporate Commit Hot List Process (CCP). From date of PCN publication, interim booking and turnback deadlines apply per standard CCP process.

- **Last Order Date Prior to Product Support Change:** Last date when customers can order the impacted product.
- **Last Shipment Date Prior to Product Support Change:** Last date when Intel will ship the impacted product to impacted customers.
- **Date Product Support Change Becomes Effective:** The point in time the product moves to the Embedded Intel Architecture Group for extended availability to embedded customers as of this date product terms and conditions and pricing may change for any customers to better align with the challenges of extending availability.

Customer Impact of Change and Recommended Action:

Customers need to plan for the change in product support and availability.

Customers may want to modify their notification preferences to include the Product Support Key Characteristic of change to any subscriptions (i.e. Intel® PCNS) they are currently notified through.

Products Affected / Intel Ordering Codes:

Affected Product Code	Affected MM#
All Active Product Codes	All Active MM#s
