Product Change Notification

Change Notification #: 108923 - 00
Change Title: D945GCLF2, PCN 108923-00, Product Design, LOM data file change and design enhancement
Date of Publication: October 22, 2008

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Nov 13, 2008
---	--------------

Description of Change to the Customer:

Replace LAN data file with a new version.

Add a 22.0 uF capacitor at location C15BV and change the 1.0 uF capacitor to 2.2 uF at location C42BV.

Delete 3.32 ohm resistor from locations R17BV and R21BV and delete 53.60 ohm resistor from locations R29BV, R46BV and R71BV. Add a 500.00 M ohm resistor at location R114BV.

Customer Impact of Change and Recommended Action:

These changes have been thoroughly evaluated to ensure that there are no quality, reliability or functional implications to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

This change is not expected to cause a change to the Microsoft* Windows* operating system's software driver stack. However, due to the change in the LAN data file existing OS images will prompt that a change has been found and request the reinstallation of new drivers. Customers should plan to update their OS image and drivers to the latest version to minimize installation impact.

Products Affected / Intel Ordering Codes:

Product Code	MM#	Pre Change AA	Post Change AA
