# Product Change Notification

**Change Notification #:** 111788 - 01  
**Change Title:** Intel® Desktop Board DZ68DB, Boxed and Bulk  
PCN 111788-01, Product Design  
BIOS Update  
**Reason for Revision: Revise "Description of Change to Customer" and "Customer Impact of Change"**  
**Date of Publication:** October 15, 2012

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Oct 22, 2012
---	--------------

## Description of Change to the Customer:

**Reason for Revision: Revise "Description of Change to Customer" and "Customer Impact of Change"**

The BIOS will be updated from DBZ6810H.86A.DB0040 to DBZ6810H.86A.DB0043. To access the release notes or get a copy of the BIOS for evaluation, go to <http://downloadcenter.intel.com>.

## Customer Impact of Change and Recommended Action:

It is recommended that customers evaluate the new BIOS to ensure a smooth transition. Intel validation of a new board revision does not include testing with older versions of BIOS. It has been observed that the change may report a "New Device Detected" in some operating systems. Microsoft\* Windows will display a message and will not automatically install the necessary drivers; therefore customers need to update their OS image. This change is not expected to cause a change to the Microsoft Windows\* operating system's software driver stack.

This change has been thoroughly evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
