The desktop thermal solution fan controller will have the internal thermistor removed. Since the fan controller has Pulse Width Modulation (PWM) for fan speed control, the thermistor is redundant for fan speed control and is not required. Thermal solution part number will change for the two desktop thermal solutions from E97378-002 to E97378-003 and E97379-002 to E97379-003. Please see the following Products Affected/Intel Ordering Codes Table for affected products:

Customer Impact of Change and Recommended Action:

The factory seal change will affect all existing retail cartons. This factory seal change will provide for a more robust and tamper evident packaging solution.

The Thermal solution fan controller thermistor removal will have no customer identifiable changes to the thermal solution. There is no change to the form, fit or function of the packaging, label, manual, thermal solution or processor.

Customers may see a mix of products until inventory has been depleted. Old and new factory seals will not be mixed within a distributor box to a customer.
