Product Change Notification

Change Notification #: 109941 - 00
Change Title: DQ57TM, PCN 109941-00, Product Marking, Add WEEE Logo to the board
Date of Publication: April 12, 2010

Key Characteristics of the Change:

Product Marking

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	May 24, 2010
-------------------------------------------------------------------------	--------------

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by changes to supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

Intel has implemented the following changes:

1. A Waste Electrical and Electronic Equipment (WEEE) logo has been added to the board. The symbol may appear in the board silk screen, on a separate label, or included in the serial number label as shown below:

Customer Impact of Change and Recommended Action:

This change has been thoroughly evaluated to ensure that there are no quality or reliability implications to our customers. Intel validation of a new board revision does not include testing with older versions of BIOS. This change is not expected to cause a change to the Microsoft Windows* operating system's software driver stack.
