Description of Change to the Customer:

Reason for revision: Intel is canceling this change. No further action is required from customers.

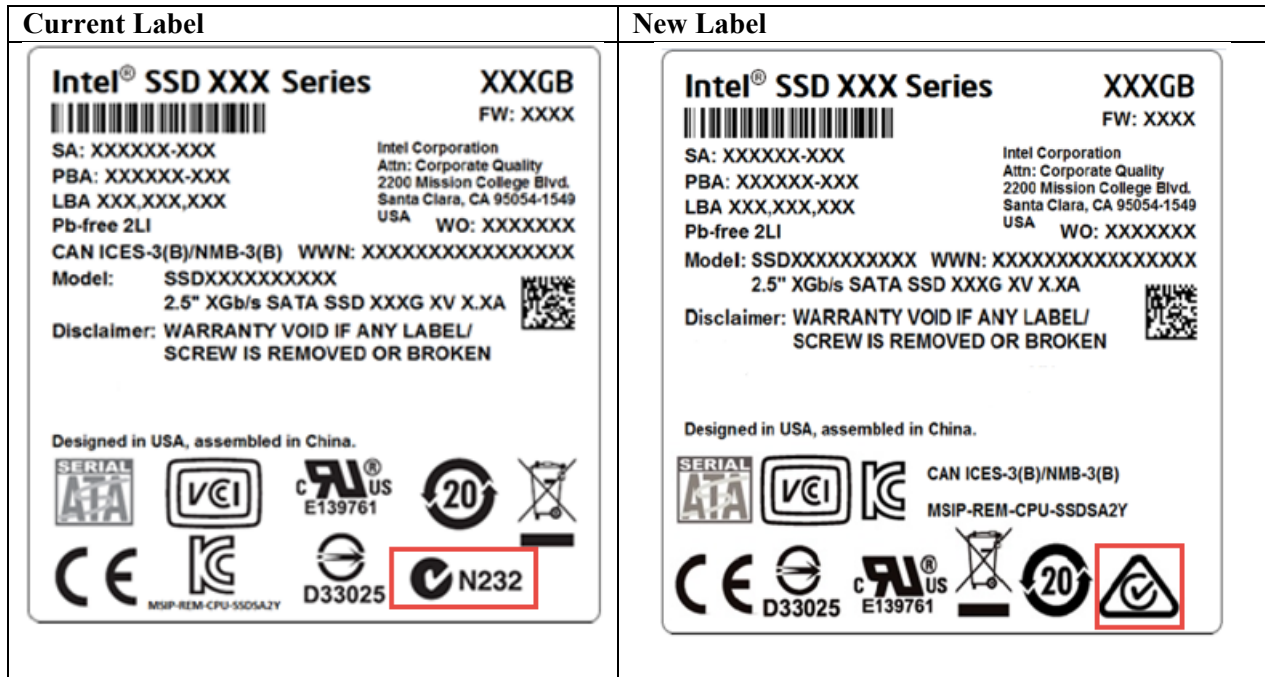

The following changes have been made to the Intel® SSD 535 Series product. The changes include a new top cover, new tamper evident labels in the top right hand corner and black screen printed Intel logo. See the current and new images provided below:

Additional changes to the Intel® SSD 535 Series will undergo the following Australia Regulatory Mark Change:

The Australian Communications and Media Authority's (ACMA) labeling arrangements to reflect:

- Regulatory compliance changed on 1 March 2013, to be phased in over a three-year transition period. Products shipping March 1, 2016 need to be labeled with the "RCM" mark.
- Per ACMA requirements, Intel will be changing the C-Tick regulatory mark on all products to the "RCM" mark.

Customer Impact of Change and Recommended Action:

There is no change to the form, fit, or function of the product. Customers should be aware of the changes to the labels and take appropriate actions to accommodate the changes and avoid impact to their process.

Milestone dates are estimates and subject to change based on business and operational conditions. Please contact your local Intel Field Sales Representative if you have any further questions about these changes.
