Change Notification #: 116757 - 00

Change Title: Select Intel® SSD DC P4101 Series Products,
PCN 116757-00, Product Design,
Firmware Update

Date of Publication: February 05, 2019

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	March 8, 2019
---	---------------

Description of Change to the Customer:

The Intel® SSD DC P4101 Series firmware version is being updated from 005D to 006D as shown in the table below.

The changes in the new firmware version are incremental improvements from previous version. Inventory will transition in the Intel factory on or beyond the above date to replace older firmware version with the latest version.

Customer Impact of Change and Recommended Action:

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
