**Change Title:** Intel® Power Supply FUP550SNRPS,  
Intel® Power Supply FUP365SNRPS,  
Intel® Server Chassis P4304XXMFEN2,  
Intel® Server Chassis P4304XXSFCN,  
Intel® Server Chassis P4304XXSHCN,  
Intel® Server System LSVRP4304ES6XXR,  
**PCN 116128-01, Product Discontinuance,  
End of Life,  
Reason for Revision: Added two product codes  
and a recommended action**

**Date of Publication:** **March 27, 2018**

## Key Characteristics of the Change:

Product Discontinuance

## Forecasted Key Milestones:

<b>Product Discontinuance Program Support Begins:</b>	March 2, 2018
<b>Last Product Discontinuance Order Date:</b>	July 1, 2018
<b>Orders are Non-Cancelable and Non-Returnable After:</b>	April 4, 2018
<b>Last Product Discontinuance Shipment Date:</b>	October 1, 2018

## Description of Change to the Customer:

### Reason for Revision: Added two product codes and a recommended action

A single-source component used in the Power supplies, chassis and systems listed above has reached the end of its shelf life. Therefore, Intel is announcing the discontinuance of select Intel® Server Power Supplies, Chassis and Systems as listed in the "Products Affected/Intel Ordering Codes" table below.

Intel will make best efforts to support all orders placed between the Non-Cancelable and Non-Returnable (NCNR) and the Last Product Discontinuance Order (LPDO) dates. Intel will discontinue builds on the LPDO date. After the LPDO date existing inventory is still orderable, under NCNR terms, and will be filled on a first come first served basis. Deliveries must be accepted within 90 days from the LPDO date.

Final purchase orders are non-cancelable and non-returnable, notwithstanding any conflicting terms in our quotes, purchase order acknowledgement or Distributor agreements.

Intel reserves the right to change the products because of material source restriction.

### Engineering and Support Guidance for Discontinued Products:

1. No new features enhancements should be expected, however Engineering Change Orders (ECOs) may be required during the extended life period to maintain supply lines (e.g. to qualify new vendor due to a component EOL).
2. Intel will provide reasonable commercial efforts in debugging issues during the warranty period for the product after the Product Discontinuance Announcement (PDA) date has passed. Fixes cannot be committed, but Intel will endeavor to provide reasonable workarounds for the product.

### Customer Impact of Change and Recommended Action:

Intel recommends that customers place a last-time order for their remaining demand on or before the Last Product Discontinuance Order Date stated above, and/or evaluate additional sources. Additional sources may include:

1. Intel® Server Chassis P4304XXMUXX with a single removable power supply,
2. Third-party chassis subject to the customer's own validation standards, or
3. Third-party chassis validated by Intel per the following lists:

To find more chassis compatible with the Intel® Server Board S1200SP Family please visit <https://www.intel.com/content/www/us/en/support/articles/000017503/server-products.html>

To find more chassis compatible with the Intel® Server Board S2600CW Family please visit <https://www.intel.com/content/www/us/en/support/articles/000007040/server-products/server-boards.html>

To find more chassis compatible with the Intel® Server Board S2600ST Family please visit <https://www.intel.com/content/www/us/en/support/articles/000026937/server-products/server-boards.html>

If you require more information or need assistance in selecting a replacement product please contact your local Intel Sales Office or Distributor.

Milestone dates are estimates and subject to change based on business and operational conditions.

Lead-times on products with announced product discontinuance can typically stretch to 12 weeks and volumes are not buffered during the PDA period. Please work with your Intel representative on your quarterly demand forecast in order to reduce lead-times to 2-4 Weeks.
