Description of Change to the Customer:

The Intel PRO/1000 PT Dual Port Server Adapters, EXPI9402PT/PTBLK/PTG2P20/PTG2L20 MM#868973/868971/882028/882886 (Redwater Retail/OEM generic) and PRO/1000 PT Quad Port LP Server Adapters, EXPI9404PTL/PTLBLK MM#884309/884311 (Kirkwood LP Retail) will undergo the following changes:

OUI Block change: Past run rates have caused the available blocks of MAC addresses assigned to run out. The OUI Block 00-15-17 has hit the low water mark, the new OUI Block will be 00-1B-21.

As a result of this change, the PBA (printed board assembly) and TA (top assembly) numbers will roll as noted in the affected products table within this PCN notice. If the PBA/TA numbers are printed on any product or box labels, those will show the PBA/TA dash roll as well.

3n1 label change: The 3n1 label will change to reflect the new OUI Block number and PBA# dash roll (printed board assembly), as show in the picture below. The 3n1 label is placed on the Front side of the Printed Board. (picture example only)

Customer Impact of Change and Recommended Action:

Intel anticipates no impact to customers.

Customers can expect to receive mixed inventory until current inventory levels are depleted.
