Change Title: Intel® NUC Kit, NUC6i5SYH and Intel® NUC Kit, NUC6i5SYK, PCN 114478-00, Product Design, Product Material, BIOS Update and Component Change
Date of Publication: March 18, 2016

Key Characteristics of the Change:

Product Design, Product Material

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Apr 11, 2016
---	--------------

Description of Change to the Customer:

The Intel® NUC Kit, NUC6i5SYH and Intel® NUC Kit, NUC6i5SYK SKUs listed in the products Affected table below will have the following change.

1. The BIOS will be updated from SY0028 to SY0039. To access the release notes or get a copy of the BIOS for evaluation, go to <http://downloadcenter.intel.com>.
2. The capacitors at locations SC181, SC190, and SC282 will be changed from 22uF to 47uF to improve memory compatibility.

Customer Impact of Change and Recommended Action:

It is recommended that customers evaluate this new BIOS to ensure a smooth transition.

These change has been thoroughly evaluated to ensure that there are no quality or reliability implications to our customers.

Intel validation of a new board revision does not include testing with older versions of BIOS. This change is not expected to cause a change to the Microsoft Windows* operating system's software driver stack.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
