DCCP847DYE, Boxed Pack  
PCN 112213-00, Product Design  
BIOS Update  
**Date of Publication:** April 15, 2013

## Key Characteristics of the Change:

Product Design

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	May 02, 2013
---	--------------

## Description of Change to the Customer:

The BIOS will be updated from GKPPT10H.86A.0036 to GKPPT10H.86A.0040. To access the release notes or get a copy of the BIOS for evaluation, go to <http://downloadcenter.intel.com>.

## Customer Impact of Change and Recommended Action:

It is recommended that customers evaluate the new BIOS to ensure a smooth transition. Intel validation of a new board revision does not include testing with older versions of BIOS. This change is not expected to cause a change to the Microsoft Windows\* operating system's software driver stack.

These changes have been evaluated to ensure there is no quality, reliability, or functional implication to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
