Product Change Notification

Change Notification #: 111448 - 02
Change Title: Intel® Desktop Board DQ77MK, Boxed and Bulk
PCN 111448-02, Product Design
PCB FAB and BIOS Update
Reason for Revision: Remove BIOS Update
Date of Publication: May 17, 2012

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jun 14, 2012
---	--------------

Description of Change to the Customer:

Reason for Revision: Remove BIOS Update

1. The PCB fab will be updated to add Active Management Technology wireless support.
2. The BIOS update was removed from this change notification and was implemented earlier. See PCN111491 for the details.

Customer Impact of Change and Recommended Action:

These changes have been thoroughly evaluated to ensure that there is no quality, reliability or functional implications to our customers. Intel is not recommending additional qualification of these changes on platforms received from Intel.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.
