

Product Change Notification

111365 - 00

Information in this document is provided in connection with Intel® products. No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document. Except as provided in Intel's Terms and Conditions of Sale for such products, Intel assumes no liability whatsoever, and Intel disclaims any express or implied warranty, relating to sale and/or use of Intel products including liability or warranties relating to fitness for a particular purpose, merchantability, or infringement of any patent, copyright or other intellectual property right. Intel products are not intended for use in medical, life saving, or life sustaining applications. Intel may make changes to specifications and product descriptions at any time, without notice.

Should you have any issues with the timeline or content of this change, please contact the Intel Representative(s) for your geographic location listed below. No response from customers will be deemed as acceptance of the change and the change will be implemented pursuant to the key milestones set forth in this attached PCN.

Product Change Notification

Change Notification #: 111365 - 00
Change Title: Intel® Express Chipsets,
PCN 111365-00, Transport Media,
Carrier Tape Change for Tape and Reel
Packed Products
Date of Publication: March 09, 2012

Key Characteristics of the Change:

Transport Media

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Apr 10, 2012
---	--------------

Description of Change to the Customer

Intel will be replacing our current supplier of carrier tapes for tape and reel packed products. The new 27x27mm package carrier tape design has full peripheral ledge supports as well as smaller pocket corner relief openings. All Critical-to-Function dimensions are the same. Since both the old and new carrier tapes have the same form factor, they are allowed to be mixed in a shipment as they are transparent in terms of functionality.

Customer Impact of Change and Recommended Action:

The customer may receive tape and reel packed products that use carrier tape from either supplier until current inventories have been depleted. This will have no impact on the customer's manufacturing process.
