Change Notification #: 116305 - 00
Change Title: For Select Intel® Optane™ SSD DC P4800X,
PCN 116305-00, Product Design,
Firmware Update
Date of Publication: June 15, 2018

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	July 16, 2018
---	---------------

Description of Change to the Customer:

The Intel® Optane™ SSD DC P4800X SKUs listed in the Products Affected table will have the following change.

- The Intel® Optane™ SSD DC P4800X 375 GB Series firmware version is being updated from E2010324 to E2010435.
- The Intel® Optane™ SSD DC P4800X 750 GB Series firmware version is being updated from E2010325 to E2010435.
- The changes in the new firmware version are incremental improvements from previous version. Inventory will transition in the Intel factory on or beyond the above date to replace older firmware version with the latest version.

Customer Impact of Change and Recommended Action:

Since the firmware update has incremental improvement over the previous version, Intel anticipates no product impact with this firmware, and re-qualification is not recommended.

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

Milestone dates are estimates and subject to change based on business and operational conditions.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.
