

# Product Change Notification

**Change Notification #:** 119340-00

**Change Title:** Select Intel® Ethernet SFP+ SR Optics,  
PCN 119340-00, Manufacturing Site, Label  
Part Number Change Displayed on Optic Label

**Date of Publication:** November 17, 2022

## Key Characteristics of the Change:

Manufacturing Site, Label

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material</b>	Currently in Effect
--	---------------------

## Description of Change to the Customer:

The Intel® Ethernet SFP+ SR Optics SKU listed in the Products Affected table has the following change:

FTLX8574D3BCV-I3 has been replaced by FTLX8574D3BCV-I5. The manufacturer of the short-wavelength VCSEL and Photodiode components was changed in the 10G per lane transceiver PMDs resulting in a part number change to the optic label.

New Label.

The replacement part has been fully tested, qualified, and approved by Intel for use on Intel branded network adapter products. These changes have been in effect since July 2021. This is an official notification of the change.

Please refer to the Intel® Ethernet SFP+ Optics Product Brief and Intel® Ethernet SFP+ SR Optics Electrical Validation Report for additional product information.

## Customer Impact of Change and Recommended Action:

Customers should expect to receive a mixture of inventory until the FTLX8574D3BCV-I3 parts have been depleted.

Please contact your local Intel Field Sales Rep if you have any further questions about these changes.

**Products Affected/Intel Ordering Codes:**

### Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at [www.intc.com](http://www.intc.com).

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
