Date of Publication: June 24, 2011

Key Characteristics of the Change:

Product Marking

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jul 24, 2011
-------------------------------------------------------------------------	--------------

Description of Change to the Customer:

Intel will implement the following changes:

1. The Intel® 5500 Chipset stepping is changing from a B3 step to a C2 step. The changes to the chipset are classified as minor and do not affect form/fit/function of the product. For a complete list of chipset stepping changes, please refer to the Intel® 5520 and Intel® 5500 Chipset Specification Update.
2. Updating the Attention document to include the latest software license agreement and ESAA (Intel® Enabled Server Acceleration Alliance) information.
3. Updating Resource CD to include new drivers, documentation, utility and software license.

For the Regulatory label on the packaging box

Updating the Regulatory Label on the packaging box to remove the old Korea Communications Commission (KCC) mark. The following is a sample picture of the old Regulatory Label:

For the Safety label and Serial Number label on the chassis

Updating the Safety label on the chassis to replace the old KCC mark with the new KC mark. The following is a sample picture of the old safety Label:

The following is a sample picture of the new safety label

This KC mark change is for the new Korea Regulatory Marking requirements on both the product and packaging box:

1. New KC mark with unique certification number
2. Human readable date information (month and year)
3. Manufacturers Name
4. Equipment Name
5. Country of Origin

Customer Impact of Change and Recommended Action:

Intel recommends that the customer perform a standard level of evaluation as updated product and software become available. Customers may need to determine the need for changing of the KC marking on their products before they are exported to or sold in the Republic of Korea market.
