**Date of Publication:** December 01, 2011

## Key Characteristics of the Change:

Label

## Forecasted Key Milestones:

<b>Date Customer Must be Ready to Receive Post-Conversion Material:</b>	Dec 26, 2011
---	--------------

## Description of Change to the Customer:

Intel is changing the current UPC and EAN barcode (currently it has the same barcode on the unit label and outer case label) to have a different UPC and EAN barcode on the out case label vs. unit label. These unique barcodes will enable customers to distinguish the over packed case of product from the individually packed units.

## Customer Impact of Change and Recommended Action:

There is no change to product functionality, product codes or the ordering process. Customers should be aware that UPC and EAN codes on the outer case carton labels will be changed and that they may need to update their incoming receiving operations. Customers may receive both current and new labeled inventory as the implementation occurs.
