Customer Impact of Change and Recommended Action:

There is no change to the form, fit, or function of the product. The change is to the Tape and Reel used in packaging.

Customers should be aware of the changes to the Tape and Reel and take appropriate actions to accommodate the changes and avoid impact to their process.

Intel will attempt to deplete pre-conversion material however it is expected that there will be a considerable transition period where customers may receive pre-conversion material and post-

conversion material, so customers should expect to receive a mix of both Current and New Conductive Grid Tape.

No action is required from customers other than to be aware and familiar with the changes described in this Product Change Notification.
