

Product Change Notification

Change Notification #: 119557-00

Change Title: Select Boxed Intel® Core™ i9-12900KS Processor, PCN 119557-00, Transport Media, Product Material Retail Box Packaging update for Boxed SKUs

Date of Publication: May 19, 2023

Key Characteristics of the Change:

Transport Media, Product Material

Forecasted Key Milestones:

| | |
|--|---------------|
| Date Customer Must be Ready to Receive Post-Conversion Material | June 25, 2023 |
|--|---------------|

Description of Change to the Customer:

Intel Corporation is changing the Retail Packaging Kit for select 12th Gen Intel Core i9-12900KS CPUs for Universal and China Box SKUs. This change decreases the volumetric storage requirements of the product by increasing the current consumer units per pallets from 560* to 1620*.

*Actual pallet quantities vary by site

- Existing custom packaging kit will be replaced with an Intel standard folding carton
- Existing Disti Box will be replaced with desktop K SKU Disti Box
- Existing labels and format will be replaced with Intel standard folding carton label placement and format

Current

i9KS Tier 2 Package Design

New

i9KS Tier 4 Package Design

Customer Impact of Change and Recommended Action:

This change results in visual differences to the exterior of the retail carton, no changes are being made to the form, fit or function of the product inside.

New packaging will decrease the volumetric storage requirements of the product.

Customers may see a mix of products until inventory has been depleted. Customers may also receive post-conversion material before the above target date if the current inventory is depleted sooner

Please contact your local Intel Field Sales representative if you have any further questions regarding this change notification.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
